Introduction

The Nepalese Embassy and Hon. Consulate General of Nepal, NSW, are crucial in facilitating communication and connections between Nepalese communities abroad and their home country. We propose a fruitful interaction program with the Nepalese Embassy and Hon. Consulate General of Nepal, NSW, to strengthen these connections and build bridges between communities.

Objectives

The main objectives of the program are:

- To identify and understand the problems of Nepalese communities.
- To provide a platform for Nepalese communities to voice their concerns, needs, and suggestions for meaningful change.
- To foster a sense of community and belonging among the Nepalese diasporas.

Program Design

The program will be face to face interaction opportunity organized by the Everest TV Community Media in collaboration with local Nepalese Community Organizations, Student Groups, Community Media, Community Leaders, and other Stakeholders. Those who cannot attend the program, especially living in a regional area or interstate, can participate through audio or video link.

- Panel discussions and town hall meetings with Embassy officials, community leaders, and community media personnel addressing the abovementioned issues.
 - Roles, Responsibilities, and Limitations of Nepalese Embassy Vs Expectation
 - Roles, Responsibilities, and Limitations of NRMA Australia Vs Expectation
 - Roles, Responsibilities, and Limitations of Education Agents Vs Expectations
 - Roles, Responsibilities, and Limitations of Colleges (Providers) Vs Expectations
 - Information sessions and workshops on student issues (such as accidents, incidents, scams, mental health, and social problems), visa regulations, education and career opportunities, investment, and trade.

Evaluation

The success of the program will be analysed and documented as a report through various measures, such as:

- Attendance rates and feedback from participants and focus groups.
- Quantitative data on the program's reach and engagement collected through social media analytics and website traffic.
- Panel discussions will be analysed and documented as a report by the Analyst panel.

Analyst Panel

- The analyst panel will consist of 8 members from various backgrounds who will prepare the evidence-based report based on the survey, panel interactions and responses by the speaker of the program.

Expected Outcome

Identifying problems and solutions through interaction is a critical step in addressing the burning issues of the Nepalese diaspora. This program will provide a unique and valuable opportunity for Nepalese communities to express their problems, connect and resolve the everyday issues of the communities.

Nepalese Population in Australia

At the end of June 2021, 129,870 Nepalese-born people were living in Australia, almost five times the number (27,810) on 30 June 2011. This is the eleventh largest migrant community in Australia, equivalent to 1.7 per cent of Australia's overseas-born population and 0.5 per cent of Australia's total population.
